

Addites of the continuous and other desents

FLAT 0/1 19 PARK ROAD. HILLHEAD **GLASGOW** G4 9.ID

Dwelling type:

Name of protocol organisation: Membership number:

Date of certificate: Reference number:

Type of assessment: Total floor area:

Main type of heating and fuel:

Ground-floor flat **BRE Certification** BREC000132

17 November 2010

0810-7029-1009-0633-5992 RdSAP, existing dwelling

75 m²

Boiler and radiators, mains cas

This inclines periorismos since

This dwelling has been assessed using the RdSAP 2005 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions. CO₂ is a greenhouse gas that contributes to climate change.

Brainy/Billeray/Relline Current Potential Very energy efficient - lower running costs con A B C (59-80) D) (55-68) 61 55 E (39-54) F (21-38) (1.20) G Not energy efficient - higher running costs EU Directive 2002/91/EC Scotland

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

Environmental Impania (60), tening Current Potential Very emittantemetry friendly - lower CO, emissions A (92 plus) B (81-91) 0 (69-80)D (55-68) 57 50 E (39-54)(((=(i)) Not environmentally friendly - higher CO; emissions EU Directive 2002/91/EC Scotland

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Approximate current energy use per square metre of floor area: 358 kWh/m² per year

Approximate current CO₂ emissions: 60 kg/m² per year

Cost effective improvements

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above.

- 1 Low energy lighting for all fixed outlets
- 2 Upgrade heating controls

A full energy report is appended to this certificate

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market
