

# Energy Performance Certificate

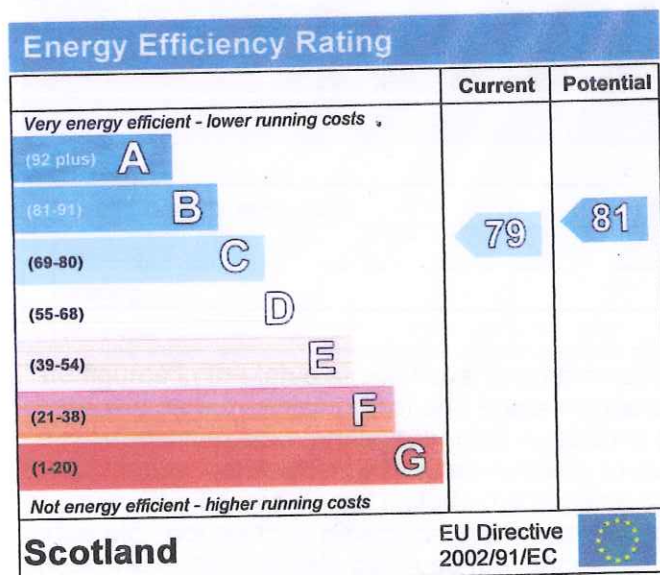

## Address of dwelling and other details

FLAT 1/2, 75 TULLIS STREET  
GLASGOW  
G40 1HW

Dwelling type: Mid-floor flat  
Name of approved organisation: Northgate Information Solutions  
Membership number: NGIS800612  
Date of certificate: 02 February 2010  
Reference number: 3500-5157-0129-1021-1903  
Type of assessment: RdSAP, existing dwelling  
Total floor area: 53 m<sup>2</sup>  
Main type of heating and fuel: Electric storage heaters

## This dwelling's performance ratings

This dwelling has been assessed using the RdSAP 2005 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on the carbon dioxide (CO<sub>2</sub>) emissions. CO<sub>2</sub> is a greenhouse gas that contributes to climate change.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating the less impact it has on the environment.

Approximate current energy use per square metre of floor area: 234 kWh/m<sup>2</sup> per year

Approximate current CO<sub>2</sub> emissions: 35 kg/m<sup>2</sup> per year

## Cost effective improvements

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above.

- 1 Low energy lighting for all fixed outlets

*A full energy report is appended to this certificate*

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market. Information from this EPC may be given to the Energy Saving Trust to provide advice to householders on financial help available to improve home energy efficiency.
