# **Energy Performance Certificate**

## Address of dwelling and other details

40 Avenue Park Bridge Of Allan Stirling FK9 4JB Dwelling type: Top-floor flat
Name of approved organisation: RICS
Membership number: RICS852152
Date of certificate: 13 October 2011
Reference number: 8590,6673,0639

Reference number: 8590-6673-0629-6190-1093
Type of assessment: RdSAP, existing dwelling

Total floor area: 65 m<sup>2</sup>

Main type of heating and fuel: Boiler and radiators, mains gas

### This dwelling's performance ratings

This dwelling has been assessed using the RdSAP 2009 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO<sub>2</sub>) emissions. CO<sub>2</sub> is a greenhouse gas that contributes to climate change.

## **Energy Efficiency Rating** Current Potential Very energy efficient - lower running costs (92 plus) B (81-91)78 76 (69-80)(55-68)E (39-54)F (21-38)G Not energy efficient - higher running costs EU Directive Scotland

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

#### Environmental Impact (CO<sub>2</sub>) Rating Potential Current Very environmentally friendly - lower CO; emissions (92 plus) B (81-91)81 78 (69-80)D (55-68) E (39-54)F (21-38)G (1-20)Not environmentally friendly - higher CO<sub>1</sub> emissions EU Directive Scotland

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating the less impact it has on the environment.

Approximate current energy use per square metre of floor area: 143 kWh/m² per year

Approximate current CO2 emissions: 27 kg/m² per year

#### Cost effective improvements

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above.

- 1 Increase loft insulation to 270 mm
- 2 Low energy lighting for all fixed outlets

A full energy report is appended to this certificate

Remember to look for the energy saving recommended logo when buying energy-efficient rice quick and easy way to identify the most energy-efficient products on the market

Information from this EPC may be given to the Energy Saving Trust to provide advice to financial help available to improve home energy efficiency.

N.B. THIS CERTIFICATE MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED VERSION
