# **Energy Performance Certificate**

## Address of dwelling and other details

3/R 5 Sandringham 37 Bath

Street Largs KA30 8BS Dwelling type:

Top-floor flat

Name of approved organisation: RICS

Membership number: Date of certificate:

RICS857043 26 July 2011

Reference number: Type of assessment: 2369-1018-8203-0699-1900 RdSAP, existing dwelling

Total floor area: 52 m²
Main type of heating and fuel: Boiler

52 m² Boiler and radiators, mains gas

## This dwelling's performance ratings

This dwelling has been assessed using the RdSAP 2009 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO<sub>2</sub>) emissions. CO<sub>2</sub> is a greenhouse gas that contributes to climate change.

# **Energy Efficiency Rating** Current Potential Very energy efficient - lower running costs (92 plus) B (81-91)C (69-80)(55-68)55 52 (39-54)(21-38)G Not energy efficient - higher running costs EU Directive 2002/91/EC Scotland

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

#### Environmental Impact (CO<sub>2</sub>) Rating Current Potential Very environmentally friendly - lower CO2 emissions (92 plus) B (81-91) C (69-80)D (55-68)52 49 E (39-54)F

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

EU Directive 2002/91/EC

Not environmentally friendly - higher CO2 emissions

Scotland

Approximate current energy use per square metre of floor area: 374 kWh/m² per year

Approximate current CO<sub>2</sub> emissions: 72 kg/m<sup>2</sup> per year

# Cost effective improvements

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above. Higher cost measures could also be considered and these are recommended in the attached energy report.

- 1 Low energy lighting for all fixed outlets
- 2 Upgrade heating controls

A full energy report is appended to this certificate

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market.

Information from this EPC may be given to the Energy Saving Trust to provide advice to householders on financial help available to improve home energy efficiency.

N.B. THIS CERTIFICATE MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED VERSION
