

Energy Performance Certificate

Address of dwelling and other details

FLAT 3/1, 24 BALGAIR TERRACE Dwelling type:
GLASGOW
G32 0PF

Name of approved organisation: Northgate Information Solutions
Membership number: NGIS801312
Date of certificate: 29 August 2010
Reference number: 3510-4928-2100-0183-0922
Type of assessment: RdSAP, existing dwelling
Total floor area: 45 m²
Main type of heating and fuel: No system present: electric heaters assumed

This dwelling's performance ratings

This dwelling has been assessed using the RdSAP 2005 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on the carbon dioxide (CO₂) emissions. CO₂ is a greenhouse gas that contributes to climate change.

Energy Efficiency Rating

	Current	Potential
<i>Very energy efficient - lower running costs</i>		
A		
B		
(63-80) C		
(55-68) D		
(39-54) E		
(21-38) F		
(1-20) G	6	6
<i>Not energy efficient - higher running costs</i>		
Scotland	EU Directive 2002/91/EC	

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills will be.

Approximate current energy use per square metre of floor area: 813 kWh/m² per year

Approximate current CO₂ emissions: 122 kg/m² per year

Cost effective improvements

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above. Higher cost measures could be considered and these are recommended in the attached energy report.

Not applicable

A full energy report is appended to this certificate

Environmental Impact (CO₂) Rating

	Current	Potential
<i>Very environmentally friendly - lower CO₂ emissions</i>		
(92 plus) A		
(81-91) B		
(69-80) C		
(56-68) D		
(38-54) E		
(21-38) F	30	30
(1-20) G		
<i>Not environmentally friendly - higher CO₂ emissions</i>		
Scotland	EU Directive 2002/91/EC	

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market. Information from this EPC may be given to the Energy Saving Trust to provide advice to householders on financial help available to improve home energy efficiency.
