## "THE NATIONAL PROPERTY SERVICE"

**Shepherd Chartered Surveyors** 

136D NORTH HIGH STREET FISHERROW

MUSSELBURGH EH21 6AS

Energy performance certificate

### **Energy Performance Certificate**

#### Address of dwelling and other details

136D North High Street Mid-floor flat Dwelling type: Name of approved organisation: RICS Fisherrow

Membership number: RICS095529 Musselburgh Date of certificate: 27 March 2012 **EH21 6AS** 

Reference number: 1312-4227-8000-0325-4996 RdSAP, existing dwelling Type of assessment:

Total floor area: 66 m<sup>2</sup>

Main type of heating and fuel: Boiler and radiators, mains gas

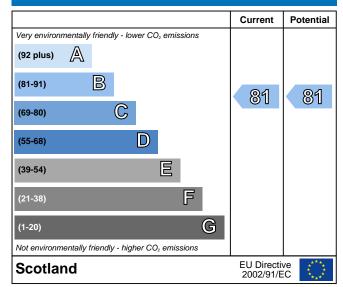

#### This dwelling's performance ratings

This dwelling has been assessed using the RdSAP 2009 methodology. Its performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO<sub>2</sub>) emissions. CO<sub>2</sub> is a greenhouse gas that contributes to climate change.

#### **Energy Efficiency Rating** Current Potential Very energy efficient - lower running costs (92 plus) (81-91) В 78 78 $\mathbb{C}$ (69-80)(55-68)匡 (39-54)F (21-38)G (1-20)Not energy efficient - higher running costs EU Directive 2002/91/EC

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

#### Environmental Impact (CO<sub>2</sub>) Rating

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating the less impact it has on the environment.

Approximate current energy use per square metre of floor area: 126 kWh/m² per year

Approximate current CO<sub>2</sub> emissions: 24 kg/m<sup>2</sup> per year

#### **Cost effective improvements**

Below is a list of lower cost measures that will raise the energy performance of the dwelling to the potential indicated in the tables above.

1 Low energy lighting for all fixed outlets

A full energy report is appended to this certificate

Scotland

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market.

Information from this EPC may be given to the Energy Saving Trust to provide advice to householders on financial help available to improve home energy efficiency.

### **Energy Report**

The Energy Performance Certificate and Energy Report for this dwelling were produced following an energy assessment undertaken by a member of RICS. This is an organisation which has been approved by the Scottish Ministers. The certificate has been produced under the Building (Scotland) Amendment Regulations 2006 and a copy of the certificate and this energy report have been lodged on a national register.

Assessor's name: Adrian Stott
Company name/trading name: J & E Shepherd

Address: 25, Bridge Street, Musselburgh,

East Lothian, EH21 6AA

Phone number: 01316533456 Fax number: 01316533140

E-mail address: musselburgh@shepherd.co.uk

Related party disclosure: No related party

#### Estimated energy use, carbon dioxide (CO<sub>2</sub>) emissions and fuel costs of this home

	Current	Potential
Energy use	126 kWh/m² per year	123 kWh/m² per year
Carbon dioxide emissions	1.6 tonnes per year	1.5 tonnes per year
Lighting	£52 per year	£39 per year
Heating	£274 per year	£276 per year
Hot water	£81 per year	£81 per year

The figures in the table above have been provided to enable prospective buyers and tenants to compare the fuel costs and carbon emissions of one home with another. To enable this comparison the figures have been calculated using standardised running conditions (heating periods, room temperatures, etc.) that are the same for all homes, consequently they are unlikely to match an occupier's actual fuel bills and carbon emissions in practice. The figures do not include the impacts of the fuels used for cooking or running appliances, such as TV, fridge etc.; nor do they reflect the costs associated with service, maintenance or safety inspections. Always check the certificate date because fuel prices can change over time and energy saving recommendations will evolve.

#### About the building's performance ratings

The ratings on the certificate provide a measure of the building's overall energy efficiency and its environmental impact, calculated in accordance with a national methodology that takes into account factors such as insulation, heating and hot water systems, ventilation and fuels used.

Not all buildings are used in the same way, so energy ratings use 'standard occupancy' assumptions which may be different from the specific way you use your home.

Buildings that are more energy efficient use less energy, save money and help protect the environment. A building with a rating of 100 would cost almost nothing to heat and light and would cause almost no carbon emissions. The potential ratings in the certificate describe how close this building could get to 100 if all the cost effective recommended improvements were implemented.

#### About the impact of buildings on the environment

One of the biggest contributors to global warming is carbon dioxide. The way we use energy in buildings causes emissions of carbon. The energy we use for heating, lighting and power in homes produces over a quarter of the UK's carbon dioxide emissions and other buildings produce a further one-sixth.

The average household causes about 6 tonnes of carbon dioxide every year. Adopting the recommendations in this report can reduce emissions and protect the environment. You could reduce emissions even more by switching to renewable energy sources. In addition there are many simple everyday measures that will save money, improve comfort and reduce the impact on the environment. Some examples are given at the end of this report.

#### Summary of this home's energy performance related features

The table below gives an assessment of the key individual elements that have an impact on this home's energy and environmental performance. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the physical condition of any element. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology based on age and type of construction.

Element	Description	Current performance	
Element	Description	Energy Efficiency	Environmental
Walls	Sandstone, as built, no insulation (assumed)	* * * * *	* * * * *
Roof	(another dwelling above)	-	-
Floor	(other premises below)	-	-
Windows	Fully double glazed	****	****
Main heating	Boiler and radiators, mains gas	****	****
Main heating controls	Programmer, room thermostat and TRVs	****	<b>★★★★☆</b>
Secondary heating	None	-	-
Hot water	From main system	****	****
Lighting	Low energy lighting in 67% of fixed outlets	****	****

Current energy efficiency rating

C 78

Current environmental impact (CO2) rating

B 81

#### Low and zero carbon energy sources

These are sources of energy (producing or providing electricity or hot water) which emit little or no carbon dioxide into the atmosphere. There are none applicable to this home.

#### Recommended measures to improve this home's energy performance

The measures below are cost effective. The performance ratings after improvement listed below are cumulative, that is they assume the improvements have been installed in the order that they appear in the table. However you should check the conditions in any covenants, warranties or sale contracts, and whether any legal permissions are required such as a building warrant, planning consent or listed building restrictions. The indicative costs are representative for most properties but may not apply in a particular case.

	Indicative cost T	Typical savings per year	Ratings after improvement	
Lower cost measures			Energy efficiency	Environmental impact
1 Low energy lighting for all fixed outlets	£8	£11	C 78	B 81
Total		£11		
Potential energy efficiency rating			C 78	
Potential environmental impact (CO <sub>2</sub> ) rating B 81			B 81	

#### Further measures to achieve even higher standards

The further measures listed below should be considered in addition to those already specified if aiming for the highest possible standards for this home. Some of these measures may be cost-effective when other building work is being carried out such as an alteration, extension or repair. Also they may become cost-effective in the future depending on changes in technology costs and fuel prices. However you should check the conditions in any covenants, warranties or sale contracts, and whether any legal permissions are required such as a building warrant, planning consent or listed building restrictions. The indicative costs are representative for most properties but may not apply in a particular case.

2 50 mm internal or external wall insulation	£5,500 - £14,500	£47	B 81	B 85
Enhanced energy efficiency rating			B 81	
Enhanced environmental impact (CO <sub>2</sub>	) rating			B 85

Improvements to the energy efficiency and environmental impact ratings will usually be in step with each other. However, they can sometimes diverge because reduced energy costs are not always accompanied by a reduction in carbon dioxide (CO<sub>2</sub>) emissions.

#### About the cost effective measures to improve this home's performance ratings

If you are a tenant, before undertaking any work you should check the terms of your lease and obtain approval from your landlord if the lease either requires it, or makes no express provision for such work.

#### Lower cost measures

These measures are relatively inexpensive to install and are worth tackling first. The indicative costs of measures included earlier in this EPC include the costs of professional installation in most cases. Some of them may be installed as DIY projects. DIY is not always straightforward, and sometimes there are health and safety risks, so take advice before carrying out DIY improvements.

#### 1 Low energy lighting

Replacement of traditional light bulbs with energy saving recommended ones will reduce lighting costs over the lifetime of the bulb, and they last up to 12 times longer than ordinary light bulbs. Also consider selecting low energy light fittings when redecorating; contact the Lighting Association for your nearest stockist of Domestic Energy Efficient Lighting Scheme fittings.

#### About the further measures to achieve even higher standards

Further measures that could deliver even higher standards for this home. You should check the conditions in any covenants, planning conditions, warranties or sale contracts before undertaking any of these measures. If you are a tenant, before undertaking any work you should check the terms of your lease and obtain approval from your landlord if the lease either requires it, or makes no express provision for such work.

#### 2 Internal or external wall insulation

Solid wall insulation involves adding a layer of insulation to either the inside or the outside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating and can be installed by a competent DIY enthusiast. External solid wall insulation is the application of an insulant and a weather-protective finish to the outside of the wall. This may improve the look of the home, particularly where existing brickwork or rendering is poor, and will provide long-lasting weather protection. Further information can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk). It should be noted that planning permission might be required and that building standards may apply to this work.

#### What can I do today?

Actions that will save money and reduce the impact of your home on the environment include:

- Ensure that you understand the dwelling and how its energy systems are intended to work so as to obtain the maximum benefit in terms of reducing energy use and CO<sub>2</sub> emissions.
- If you have a conservatory or sunroom, avoid heating it in order to use it in cold weather and close doors between the conservatory and dwelling.
- Check that your heating system thermostat is not set too high (in a home, 21°C in the living room is suggested) and use the timer to ensure you only heat the building when necessary.
- Turn off lights when not needed and do not leave appliances on standby. Remember not to leave chargers (e.g. for mobile phones) turned on when you are not using them.
- Close your curtains at night to reduce heat escaping through the windows.
- If you're not filling up the washing machine, tumble dryer or dishwasher, use the half-load or economy programme. Minimise the use of tumble dryers and dry clothes outdoors where possible.
- Check the draught-proofing of windows and replace it if appropriate.
- If you have unused open chimneys consider blocking them off (making provision for a ventilation opening and a cowl on top of the chimney to avoid dampness).

For advice on how to take action and to find out about offers available to help make your home more energy efficient, call 0800 512 012 or visit www.energysavingtrust.org.uk.

# Scottish Single Survey

### survey report on:

Property address	136D North High Street Fisherrow Musselburgh EH21 6AS
Customer	Miss J Leith
Customer address	136d North High Street Fisherrow Musselburgh EH21 6AS
Prepared by	J & E Shepherd

9th January 2013

Date of inspection

#### PART 1 - GENERAL

#### 1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property<sup>1</sup>.

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

#### 1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in the expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

<sup>&</sup>lt;sup>1</sup> Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions. The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

#### 1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:-

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

#### 1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

#### 1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report <sup>2</sup> will be from information contained in the Report and the generic Mortgage Valuation Report.

<sup>&</sup>lt;sup>2</sup> Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct

#### 1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

#### 1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

#### 1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

#### 1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

#### 1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format;

- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller:
- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

#### PART 2 - DESCRIPTION OF THE REPORT

#### 2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

#### 2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

#### 2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2. Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
- 3. Category 1: No immediate action or repair is needed.

#### **WARNING:**

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

#### 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

#### 2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

#### 2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

#### 2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value, the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

#### 1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

Description	The subjects comprise an extended second floor flat in a four storey block of six residential units with commercial premises at ground floor. At date of inspection the property was vacant, partially furnished and floors covered throughout.
Accommodation	Second Floor: Entrance Hallway, Living Room, 2 Bedrooms, Kitchen and Bathroom with w.c.
Gross internal floor area (m²)	66m2 or thereby
Neighbourhood and location	The subjects are situated in a mixed age residential/commercial area near the centre of Musselburgh enjoying ready access to local shopping, educational and social amenities.
Age	Approximately 1900
Age	Approximately 1900
Age	Approximately 1900  Dry and bright

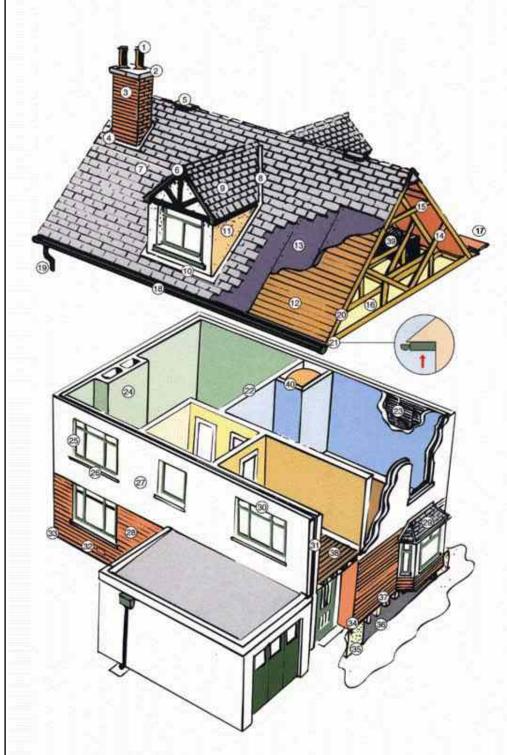

Roofing including roof space	Flat roofs were visually inspected from vantage points within the property and where safe and reasonable to do so from a 3m ladder externally.  The roof has a flat profile which was not visible to us at date of inspection. There are stone copings and there is a centrally situated cupola. There is no access to the roof void or roof area as an access hatch was in excess of three meters height from the top landing flooring and our report should be read in this context.
Rainwater fittings	Visually inspected with the aid of binoculars where appropriate.  Rainwater goods fitted to the eaves are to a mixture of ogee
	moulded cast iron goods and half round cast iron goods fitted with matching downpipes.
Main walls	Visually inspected with the aid of binoculars where appropriate.
	Foundations and concealed parts were not exposed or inspected.
	The main walls are stone pointed to front elevation and brick harled to rear elevation. There is a bay projection to the living room area. Bird spikes were noted to sill to rear elevation bedroom.
Windows, external doors and joinery	Internal and external doors were opened and closed where keys were available.
	Random windows were opened and closed where possible.
	Doors and windows were not forced open.
	The windows are to mainly replaced upvc double glazed design some date stamped 2005 with opaque glazing noted to the bathroom. There are single glazed timber frame windows viewing onto the common stairway and these are situated in the hallway and a built in cupboard off the hallway. Access to the subject property is via an entrance door of timber panel design incorporating glazed fanlight and is secured by yale and mortice lock.
External decorations	Visually inspected.
	External decoration is to pvc powder coating and painterwork.
Conservatories / porches	Not applicable.

Communal areas	Circulation areas visually inspected.
	There is a common access stairway serving the subject property with secure entry phone system. There is Veitchi flooring and walls are plastered on the hard. Stairs serving as access from ground floor to upper floors are to solid screed incorporating a metal balustrade and timber handrail.
Caragos and permanent outbuildings	Visually inspected.
Garages and permanent outbuildings	There is a bin store/storage unit to the ground floor. This was not visible to us at date of our inspection. Parking is currently on street to front elevation.
Outside areas and boundaries	Visually inspected.
	Hard frontage to front elevation. Rear elevation is bounded by stone walls and appears to have communal garden ground and is laid to lawn, plantings and paving.
a	No. 11. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1
Ceilings	Visually inspected from floor level.
	Ceilings appear to be to lath and plaster with some areas of cornice work noted.
Internal walls	Visually inspected from floor level.
internal wans	
	Using a moisture meter, walls were randomly tested for dampness where considered appropriate.
	Internal faces of external walls and internal separating walls are to plaster on the hard with pine panelling noted to part of the living room.
Floors including sub floors	Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.
	The flooring throughout is of suspended timber overlaid in boarding. No access was available to any sub floor area and our report should be read in this context.
Internal joinery and kitchen fittings	Built-in cupboards were looked into but no stored items were moved.
	Kitchen units were visually inspected excluding appliances.
	Skirtings and architraves are to painted timber and stained timber. Internal doors are to timber panel design. No door was noted to the kitchen. The kitchen units are to a range of built in wall and base units and incorporates a stainless steel sink unit.

Chimney breasts and fireplaces	Visually inspected.
	No testing of the flues or fittings was carried out.
	There is a decorative surround to the living room. Fireplaces which would have served the subject property appear to have all been removed.
Internal decorations	Visually inspected.
	Internal decoration is to paperwork, paintwork, tilework and pine panelling.
Cellars	Not applicable.
Electricity	Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.  The meter and fuseboard is wall mounted to a built in cupboard to the hallway.
Gas	Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.  The gas meter is floor mounted to the kitchen.
Water, plumbing, bathroom fittings	Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.
	No tests whatsoever were carried out to the system or appliances.
	Believed to be direct from mains. The plumber work, where visible, is to copper supply pipes and pvc waste pipes. The bathroom fittings comprise a three piece white suite with shower over bath.
Heating and hot water	Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.
	No tests whatsoever were carried out to the system or appliances.
	The property has a gas fired central heating system with the boiler wall mounted to the kitchen and ventilated externally. The boiler also supplies the hot water.

Drainage	Drainage covers etc. were not lifted.
	Neither drains nor drainage systems were tested.
	Believed to be connected to the main public sewer which is adopted by the local authority. Surface water is to run away.
Fire, smoke and burglar alarms	Visually inspected.
	No tests whatsoever were carried out to the system or appliances.
	Smoke alarms noted.
Any additional limits to inspection	For flats / maisonettes
	Only the subject flat and internal communal areas giving access to the flat were inspected.
	If the roof space or under-building / basement is communal, reasonable and safe access is not always possible. If no inspection was possible, this will be stated. If no inspection was possible, the surveyor will assume that there are no defects that will have a material effect on the valuation.
	The building containing the flat, including any external communal areas, was visually inspected only to the extent that the surveyor is able to give an opinion on the general condition and standard of maintenance.
	At date of inspection the property was aprt furnished and floors covered throughout. Given the orientation of the subject property the roof was not visible to us at date of inspection and our report should be read in this context.

#### 2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

Category 3	Category 2	Category 1
	Repairs or replacement requiring future attention, but estimates are still advised.	

Structural movement	
Repair category	1
Notes	Structural movement was noted to the property in the form of slopes to the floors and lintels which are off true. This is considered to be consolidated and non progressive in nature given the limitations of our single, visual and non disruptive inspection.

Dampness, rot and infestation	
Repair category	1
Notes	No evidence of dampness, rot or infestation were noted by us during the course of our single visual and non disruptive inspection.

Chimney stacks	
Repair category	1
Notes	

Roofing including roof space	
Repair category	1
Notes	Flat roofing contractors advise that flat roofs require ongoing and more than typical maintenance expenditure given the limited life span of this type of material.  Valuation presumes there is a mutual repairing liability for all roof and structural repairs.

Rainwater fittings	
Repair category	2
Notes	Some areas of rusted sections noted. Part embedded downpipe noted to rear elevation. Vegetation growth noted to gutters.

Main walls	
Repair category	1
Notes	

Windows, external doors and joinery	
Repair category	1
Notes	Valuation presumes that replacement windows comply with relevant building and fire regulations.

External decorations	
Repair category	1
Notes	

Conservatories/porches	
Repair category	-
Notes	Not applicable.

Communal areas	
Repair category	1
Notes	

Garages and permanent outbuildings	
Repair category	1
Notes	

Outside areas and boundaries	
Repair category	2
Notes	Some areas of open point work noted to the stone wall boundaries.

Ceilings	
Repair category	2
Notes	Lath and plaster ceilings may lose their bond without notice. Staining noted to ceiling to rear bedroom. the ceiling is above three meter in height and no safe access could be taken to test for positive dampness. Areas of hailrline distortion/cracking noted to some ceilig areas.

Internal walls	
Repair category	1
Notes	

Floors including sub-floors	
Repair category	1
Notes	

Internal joinery and kitchen fittings	
Repair category	1
Notes	Some ill closing internal doors noted. Loose sink unit noted to the kitchen.

Chimney breasts and fireplaces	
Repair category	1
Notes	

Internal decorations	
Repair category	2
Notes	Cracked tile and missing grouting noted to the bathroom area.

Cellars	
Repair category	-
Notes	Not applicable.

Electricity	
Repair category	1
Notes	The Institute of Electrical Engineers recommends that inspections and testings are undertaken at least every ten years and on a change of occupancy. It should be appreciated that only the most recently constructed or re-wired properties will have installations which fully comply with IEE regulations.

Gas	
Repair category	1
Notes	Gas Safe contractors recommend regular servicing.

Water, plumbing and bathroom fittings				
Repair category	1			
Notes	Defective mastic sealants can cause water damage to inaccessible or unexposed parts particularly behind bath panels or shower trays. We were unable to view these areas and we cannot guarantee therefore that these areas are free from defect.			

Heating and hot water				
Repair category	1			
Notes	It is assumed the gas boiler and gas installations are regularly maintained and inspected and conform with present day regulations.			

Drainage	
Repair category	1
Notes	

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

Structural movement	1
Dampness, rot and infestation	1
Chimney stacks	1
Roofing including roof space	1
Rainwater fittings	2
Main walls	1
Windows, external doors and joinery	1
External decorations	1

Garages and permanent outbuildings	1
Outside areas and boundaries	2
Ceilings	2
Internal walls	1
Floors including sub-floors	1
Internal joinery and kitchen fittings	1
Chimney breasts and fireplaces	1
Internal decorations	2
Cellars	-
Electricity	1
Gas	1
Water, plumbing and bathroom fittings	1
Heating and hot water	1
Drainage	1

#### **Category 3**

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

#### Category 2

Repairs or replacement requiring future attention, but estimates are still advised.

#### Category 1

No immediate action or repair is needed.

#### Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

#### Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

#### 3. Accessibility information

#### Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property:

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

#### Unrestricted parking within 25 metres:

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Second		
2. Are there three steps or fewer to a main entrance door of the property?	Yes No X		
3. Is there a lift to the main entrance door of the property?	Yes No X		
4. Are all door openings greater than 750mm?	Yes No X		
5. Is there a toilet on the same level as the living room and kitchen?	Yes X No		
6. Is there a toilet on the same level as a bedroom?	Yes X No		
7. Are all rooms on the same level with no internal steps or stairs?	Yes X No		
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes X No		

#### 4. Valuation and conveyancer issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated reinstatement cost for insurance purposes.

#### Matters for a solicitor or licensed conveyancer

Where defects or repairs have been identified within this report it is recommended that, prior to entering into any legally binding sale or purchase contract, further specialists or contractors advice and estimates should be obtained, to establish the implications, if any, on a potential offer to purchase or the sale price likely to be achieved for the property.

The property has been extended to the rear elevation at some considerable time in the past and we are of the opinion that no exhibition of documentation in this regard should be required.

Valuation presumes that replacement windows comply with relevant building and fire regulations.

Valuation presumes there is a mutual repairing liability for all roof and structural repairs.

The subjects are situated within the Old East Lothian coal mining area and the conveyancing solicitor will obtain a Coal Mining Report in this instance.

#### Estimated reinstatement cost for insurance purposes

We are of the opinion that the present re-instatement value of the property with due allowance for demolition, site clearance and professional fees would be fairly stated in the region of £166,000 (ONE HUNDRED AND SIXTY SIX THOUSAND POUNDS). We recommend this be reviewed annually or upon any physical alteration to the property.

#### Valuation and market comments

Having considered matters, taking account of our general observations on site, we are of the opinion that the current market value of the subjects in their present condition and with the benefit of full vacant possession may be fairly stated in the capital sum of £95 000( NINETY FIVE THOUSAND POUNDS).

# Mortgage Valuation Report

General Remarks
At date of inspection property was in a condition generally consistent with age, type and location.
Valuation presumes that replacement windows comply with relevant building and fire regulations.
The subjects are situated within the Old East Lothian coal mining area and the conveyancing solicitor will obtain a Coal Mining Report in this instance.
Flat roofing contractors advise that flat roofs require ongoing and more than typical maintenance expenditure given the limited life span of this type of material. Staining noted to rear bedroom ceiling. It would be prudent to have this inspected by a specilaist to determine the extent of any possible damage, and the possible costs associated with any required works.
Essential Repairs
None noted at date of inspection.
Estimated cost of essential repairs £ Retention recommended? Yes No Amount £

### Mortgage Valuation Report

#### **Comment on Mortgageability**

ou should confirm with your proposed mortgage lender that this property meets their lending requirements. It ould be noted that not all lenders have similar lending policies.	

#### **Valuations**

Market value in present condition

95000

Market value on completion of essential repairs

166000

Insurance reinstatement value

(to include the cost of total rebuilding, site clearance, professional fees, ancillary charges plus VAT)

Is a reinspection necessary?

Yes X No

#### **Buy To Let Cases**

What is the reasonable range of monthly rental income for the property assuming a letting on a 6 month Short Assured Tenancy basis?

£ 575-625

Is the property in an area where there is a steady demand for rented accommodation of this type?

X Yes No

**Property Questionaire** 

Property address	136D NORTH HIGH STREET FISHERROW, MUSSELBURGH, EH21 6AS
Seller(s)	Jayne Leith
Completion date of property questionnaire	18/03/2012

### **Note for sellers**

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

### Information to be given to prospective buyer(s)

1.	Length of ownership
	How long have you owned the property? 19 years
2.	Council tax
	Which Council Tax band is your property in? (Please circle)
	(A) B C D E F G H
3.	Parking
	What are the arrangements for parking at your property?
	(Please tick all that apply)
	Garage
	Allocated parking space
	Driveway
	Shared parking
	On street
	Resident permit
	Metered parking
	Other (please specify):
4.	Conservation area
	Is your property in a designated Conservation Area (i.e. an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?

5.	Listed buildings			
	Is your property a Listed Building, or contained within one (i.e. a building recognised and approved as being of special architectural or historical interest)?	<del>Yes</del> / No		
6.	Alterations/additions/extensions			
a.	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?  If you have answered yes, please describe below the changes which you have made:	<del>Yos</del> / No		
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?  If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.  If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:	<del>Yes</del> / <del>Ne</del>		
b.	Have you had replacement windows, doors, patio doors or double glazing installed in your property?  If you have answered yes, please answer the three questions below:	Yes / <del>No</del>		
	(i) Were the replacements the same shape and type as the ones you replaced?	Yes / Ne		
	(ii) Did this work involve any changes to the window or door openings?	<del>Yos</del> / No		
	(iii) Please describe the changes made to the windows, doors or patio doors (with approximate dates when the work was completed):			
	New windows approx 5 years ago			
	Please give any guarantees which you received for this work to your solicitor or e	estate agent.		

7.	Central heating	
a.	Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property - the main living room, the bedroom(s), the hall and the bathroom).	Yes / <del>Ne</del> / <del>Partial</del>
	If you have answered yes / partial - what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air).	
	gas	
	If you have answered yes, please answer the three questions below:	
b.	When was your central heating system or partial central heating system installed?	Cannot answer*
C.	Do you have a maintenance contract for the central heating system?	<del>Yes</del> / No
	If you have answered yes, please give details of the company with which you have a maintenance contract:	
d.	When was your maintenance agreement last renewed? (Please provide the month and year).	
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	Yes / No Cannot answer*
9.	Issues that may have affected your property	
a.	Has there been any storm, flood, fire or other structural damage to your property while you have owned it?	<del>Yos</del> / No
	If you have answered yes, is the damage the subject of any outstanding insurance claim?	<del>Yes</del> / <del>No</del>
b.	Are you aware of the existence of asbestos in your property?	<del>Yes</del> / No
	If you have answered yes, please give details:	

Sup	ase tick which services are oplier:	e connected to yo	our property and give details	of the
	Services	Connected	Supplier	
	Gas / liquid petroleum gas	Cannot answer*		
	Water mains / private water supply	Cannot answer*		
	Electricity	Cannot answer*

hav				

11.	Responsibilities for Shared or Common Areas	
a.	Are you aware of any responsibility to contribute to the cost of anything used jointly, such as the repair of a shared drive, private road, boundary, or garden area?	<del>Yos</del> / <del>No</del> / Don't Know
	If you have answered yes, please give details:	
b.	Is there a responsibility to contribute to repair and maintenance of the roof, common stairwell or other common areas?	Yes / No / Not applicable Cannot answer*
	If you have answered yes, please give details:	
C.	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?	Yes / No Cannot answer*
d.	Do you have the right to walk over any of your neighbours' property - for example to put out your rubbish bin or to maintain your boundaries?	Yes / No Cannot answer*
	If you have answered yes, please give details:	
e.	As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries?	Yes / No Cannot answer*
	If you have answered yes, please give details:	
f.	As far as you are aware, is there a public right of way across any part of your property? (public right of way is a way over which the public has a right to pass, whether or not the land is privately-owned.)	<del>Yes</del> / No
	If you have answered yes, please give details:	
12.	Charges associated with your property	
a.	Is there a factor or property manager for your property?	Yes / No Cannot answer*
	If you have answered yes, please provide the name and address, and give details of any deposit held and approximate charges:	

b.	Is there a common buildings insurance policy?	<del>Yes</del> / <del>No</del> / Don't Know
	If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?	Yes / No / Den't Knew
C.	Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, for example to a residents' association, or maintenance or stair fund.	
13.	Specialist works	
a.	As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?	<del>Yes</del> / No
	If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property:	
b.	As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property?	<del>Yos</del> / No
	If you have answered yes, please give details:	
C.	If you have answered yes to 13(a) or (b), do you have any guarantees relating to this work?	Yes / No
	If you have answered yes, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself please write below who has these documents and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate.	
	Guarantees are held by:	

	Guarantees						
a. /	Are there any guarantees or warranties for an	y of the	following	:			
(i)	Electrical work	No	Yos	Don't know	With title doods	Lost	Cannot Answor*
(ii)	Roofing	Ne	Yos	Don't know	With title doods	Lost	Cannot Answor*
